

# The AM Certificate Course

## The Principles of Asset Management

### Flexible Online Learning

The 14 e-learning modules can be done at a time and place to suit you.

Complete the modules using a laptop, tablet, PC or smart phone, whenever and wherever you choose.

### Easy to Understand, Clear and Fun!

Learning that's clear, fun and tests your knowledge as you go.

Do the modules in your own time and feel free to repeat any element or test.

### Modules Mapped to IAM Exam

Modules are mapped to the syllabus and learning requirements of the Institute of Asset Management's Principles of AM exam.

### Ready to Pass

99.9% of those who complete our online AM Certificate Course and go to take the IAM's exam, pass it.

### Exam Confidence

Complete the course and you'll be 100% ready for the IAM exam.

### Community

You'll be part of a community that can evidence their asset management knowledge.

### Globally Recognised

Knowledge that covers the 39 globally recognised areas of asset management, as defined by ISO55000 the international standard for AM.

The course provides full coverage of the IAM's Competencies Framework and the '39 Subjects' in the Global Forum for Maintenance and Asset Management's (GFMAM's) AM Landscape.

The Course can be supplemented by three optional webinars led by expert hosts who guide learners through 'real world' questions and ensure exam-readiness for those taking the IAM Certificate Exam.

## Sign up for the AM Certificate Course today!

It's easy to sign up to take the online course, simply follow the steps below and you will be on your way to achieving your AM qualification.

- 1** Go to our online store at <http://assetwisdom.e3learning.co.uk> and select your course.
